

HANDYJET - THE SMALL

FACTS

Type: Conveying Pump Handyjet

Use: Plastering, renovation, injection and pump operations

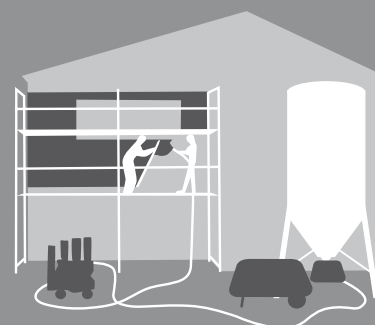

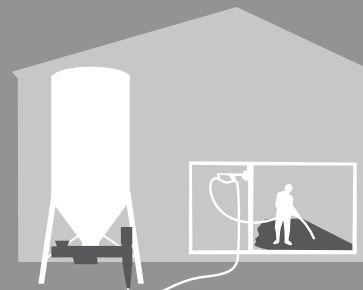

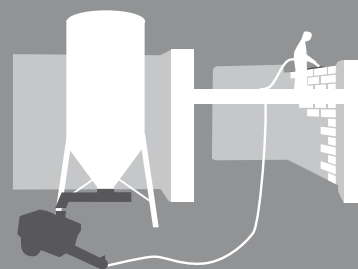

Innovation: Continuous mixer mounted (optional)

FEATURES

- Plaster nozzle, construction mortar, filling and anchor mortar, fire protection mortar, injection mortar and tile filling
- Can be issued either with a gearbox engine (2,2 kW–5,5 kW)
- Large power spectrum
- Maximum granulation 4 mm

Control panel

TECHNICAL DATA

Gear motor 5,5kW 400V 50Hz
2,2kW 230V 50Hz

Mixing capacity (5,5 kW)* approx. 30 l/min

Mixing capacity (2,2 kW)* approx. 10 l/min

Max. range (5,5 kW)* approx. 30 m

Max. range (2,2 kW)* approx. 10 m

IN 12 A

MEASURE+WEIGHT

Length 140 cm

Width 48 cm

Height 64 cm

Mortar Hopper ca. 85 l

Total weight 94 kg

MACHINERY

Pump (5,5 kW) Millenium

Pump (2,2 kW) D4-ECO

Mortar hose 10 m

Electric cable 25-40 m

Glue gun (optional)

* Approximate values that may vary according to type and consistency of the material used
